ROCKFORD, ILLINOIS

This National Bank

and its predecessors has been serving the people of Will County since 1857. It is one of the OLDEST NATIONAL BANKS in the entire United States. Here you are cordially invited to maintain a Checking or Savings Account, obtain your Bank Money-Orders, Travelers Checks or make use of any other banking service. If you wish to do so, you can transact all of your banking business by mail — a great convenience if you live a distance from Joliet. Drop in at any time. You are always welcome!

FARM LOANS OF ALL KINDS

are made by this bank which has since long before the Civil War been a friend of the farmers of this section of Illinois. The Agricultural Loan Department of this bank, headed by one of the most experienced bank-loan men in the Middle-West, will be glad to discuss with you —

- **CATTLE FEEDER LOANS**
- **GENERAL PURPOSE LOANS for Operating Expenses, Refinancing of Debts, Replacements, etc.**
- **CROP PRODUCTION LOANS**
- **DAIRY LOANS**
- **CORN LOANS**
- **FARM MORTGAGE LOANS**

and any other type of loan needed to meet your requirements. You may be sure that you will be accorded prompt, friendly service free from annoying red tape. C[illegible]ite, or phone.

WILL COUNTY SOIL CONSERVATION DISTRICT

Organized to provide for the Conservation of soil and water, maintenance of soil fertility, better use of land and a better living for all people.

Rotations that keep the soil in grass-legume meadow crops a sufficient percentage of the time is basic. Grass waterways provide a safe vegetative pavement for runoff water. Contouring practices control erosion, conserve water, and increase yields. Wildlife conservation is generally improved on farms where soil is used properly.

Salute to the Leaders!

we would like to pay a well-deserved tribute to the leaders of our 4-H Clubs. These men and women give their time unselfishly. They attend club meetings. They counsel club members on projects and activities. All of us pay our respects to you — the leaders of our local 4-H Clubs.

NORTHERN ILLINOIS Farm Life VOL. 8 NO. 1

Keep Posted on
FARM LIFE *in Northern Illinois*

You'll find your copy of FARM LIFE in your mailbox every other month. This interesting and helpful magazine brings you news of the latest developments in electricity on the farm. You'll see the latest time, work, feed and stock-saving practices pictured in FARM LIFE magazine . . . as well as pioneering farm ideas.

You and your family will enjoy the regular features: Farm Chores Modern Style, Farm Life Goes Visiting, and Northern Illinois Farm Wife. Favorite recipes and helpful household hints are featured . . . and there's a special section for Youth on the Farm. The magazine is filled with pictures and feature stories about your friends and neighbors.

Electricity is of increasing importance in Northern Illinois farm life. To help you gain maximum benefits from your electric service, a Public Service Company Agricultural Engineer will gladly visit your farm and help you work out chore improvements. These Agricultural Engineers are also available for Farm Bureau, 4-H, F.F.A., and other club meetings. Just phone or mail a post card to our local store to obtain his expert services without charge or obligation.

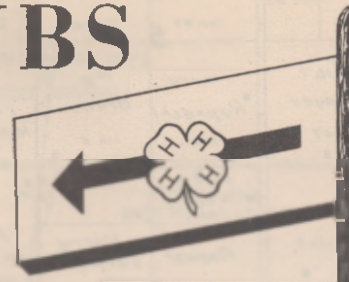
4-H CLUBS

Point the Way . .



TO a more responsible citizenship tomorrow.

TO greater friendships through work, fun, and fellowship.

TO a share in the responsibility for community improvement.

These are three of the ten guide-posts for 4-H Club programs which are helping to prepare *Will* county's girls and boys for positions of responsibility in our communities.

Let's get behind the 4-H Clubs and help boost their good work throughout the county!

PROVEN METHOD FOR AVOIDING INJURY...

CASE MODEL "A" COMBINE

"Head and Shoulders Above the Crowd"

● That's the verdict of those who know combines. If you always have clean, upstanding crops, you may not really need a combine so capable as the Case "A." But for small seeds like clover, that take real rubbing to thresh out . . . or a brittle crop like beans . . . or fine, fluffy seeds like some of the grasses . . . or even grain that is tough to thresh, the "A" is in a class by itself.
